

# MEMORANDUM

DATE: 03/11/2016

TO: City Council, Mark Achen

FROM: Mike Lee

SUBJECT: Website Redesign, Development and Implementation Project

The Website Redesign, Development and Implementation committee would like to move forward with Revize for this project.

They seem to be a solid company and have a large number of customers similar to us.

It has the features we are looking for.

The proposed cost is within budget.

Reference calls have been positive.

If there are not any objections; we will move forward with contracting and scheduling system design, installation and go live.
