Comments in support I'd speed limits and enforcement-

I support the concept of 25 mph speed limits in residential areas in the City Of Gunnison. More importantly, I encourage the City Of Gunnison to work closer with the police department to enforce existing laws that are already on the books. If you want to catch more DUIs and drug dealers, pull people over for speeding!

Most drivers in our county are very polite. Lately I have noticed several big trucks that are extremely loud and polluting. I'm not sure if they are breaking any laws but if so it might be nice to find a way to curb their enthusiasm.

Outside of the city, it seems like there is basically no speed limit on Highway 135. What would be the downside of enforcing the 55 mph speed limit, especially the out of towners making multiple passes for no apparent reason.

I really appreciate the recent improvements in visibility of crosswalks in town let's keep the momentum with this. We might also want to look at visibility at certain intersections. Crabapple trees are beautiful, more beautiful than the semi truck speeding down 135, but I would rather see the truck before I pull out into the highway.

Best Regards,

Bill Gallen
