Hello!

Thanks for all of your hard work.

I am writing to add my support to the following items up for discussion -

1. Lowering speed limit to 25 mph on residential streets.

I am amazed at how fast people drive down Spruce and Wisconsin and I have never once seen anyone pulled over on these streets for doing so.

2. Adding more stop signs or speed bumps on residential streets. Again, the simple goal of slowing people down especially in residential neighborhoods.

3. More signage and flashing lights at crosswalks and more enforcement for drivers not stopping for pedestrians in crosswalks. The few improvements that have been made are appreciated but more really needs to be done to keep pedestrians safe. Especially as traffic continues to increase in our beautiful town.

Any help with these matter would be greatly appreciated.

Very best,

Kelly Gallen
