I would like to see the City Council consider lowering all residential city street speed limits by 5 miles per hour. However, as many have already stated reduced speed limits are of little use if not enforced. Although CDOT has the ultimate say on Main and Tomichi I still think that additional pressure could be put on them to reduce speeds (especially for North Main Street) significantly.

There are many other ways that traffic could be addressed throughout town including additional 4-way stops (Denver and Colorado is one that needs a 4 way stop) and light configurations (turning signals added at Spruce and 135, no right turn on red at Main & Tomichi westbound and turn signal at Denver & Main).

Thank you,
